This is a survey course covering the American criminal justice system. Students will learn the elements of a criminal charge (what is the legal basis for a charge) as well as how an arrest moves through the criminal justice system to a final disposition. Students will learn about the various players and their roles in the criminal justice system: police, victims, defense and prosecuting attorneys and judges. The history of our criminal justice system will be explored as well as the very practical aspects of a criminal case including analyzing a criminal case, bond settings, preliminary hearings, and the ethical considerations of a defense attorney. The full spectrum of dispositions will be examined including dismissals, pre-trial options, specialty courts, guilty pleas and trials.

In addition to the textbook (Criminal Law and Procedure, Scheb & Scheb) some outside reading will be assigned.

You are expected to read the assigned chapters and occasional outside material. Regular and on-time attendance is mandatory. Unexcused absences will negatively impact your final grade.

Final grades will be based on class attendance and participation, as well as written assignments and observation of at least two guilty plea courts (approx. 25%), and four in class tests (approx. 75%). There are no scheduled Make Up tests. If you are aware of a conflict or have an excused absence at the time of a scheduled test - then it is your responsibility to notify me in advance of the test to determine if alternative arrangements can be made. Similarly, if you are aware of an attendance issue for a lecture or guilty pleas, then I expect you to communicate that issue to me in advance of your absence. Finally, if there are any special circumstances that will hinder your ability to complete the course work, tests or other requirements, or any issues that will limit your potential to succeed in the class - then please let me know.
